EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: **Rejoin claim 10 to the independent claim 1 and cancel claims 7-9.**

2. This application is in condition for allowance except for the presence of claims 7-9 to a claimed invention non-elected without traverse. Accordingly, claims 7-9 have been cancelled.

3. The following is an examiner's statement of reasons for allowance:

Hill discloses a battery connecting module with a fuse mounting having bus bars mounted within a housing having upper and bottom portions. Hill does not disclose an intermediate case within the housing module supporting the upper case of the housing. Schaefer discloses an electrical power connector within a housing having an intermediate case portion. Schaefer does not disclose the intermediate case portion supporting the upper housing portion. A skilled artisan would not have motivated to modify the housing module of Hill to include the intermediate casing of Schaefer since Hill's design provides supports for the components within the bottom housing portion and the addition of an intermediate casing would be unnecessary. Furthermore, the cited references, in combination between Hill and Schaefer, fail to disclose or

suggestion the fuse being perpendicular to the upper case and the lower case to reduce the overall height of the fuse box.

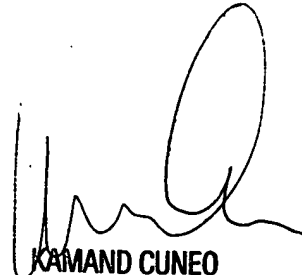

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
